**Warning:**

Installation of an electric fan should only be undertaken by those with mechanical knowledge who are familiar with working on vehicles. ALWAYS use eye protection (goggles, safety glasses or shield). Park the vehicle in a well lit area, on level ground and apply the parking brake. Disconnect the battery before beginning. After installation, reconnect battery and check all lights and electronic functions thoroughly. Before starting the vehicle, make sure no tools or any other items underhood will interfere with or be drawn into the fan blade assembly. Failure to follow instructions can lead to severe damage and personal injury.
