

THE LEADER IN PERFORMANCE COOLING

Our Universal Inline Fuel pumps are manufactured using only the highest quality materials, manufacturing methods and technology in order to insure maximum performance and reliability. These pumps cover a wide range of low pressure carbureted fuel system applications. They are also available for a variety of fuel types including Gasoline, Diesel, E85, E100, M100 and Racing Fuel. All Derales Universal Inline Fuel Pumps include the necessary hardware for installation as well as inline filters where applicable. Boost your fuel delivery system's efficiency and performance with our universal inline fuel pumps!

HIGH PERFORMANCE INLINE FUEL PUMPS

- COMPACT DESIGN
- CONSTANT HIGH-FLOW RATE
- CONSISTENT PRESSURE
- ROTARY VANE INLINE PUMP

PART NUMBER	FUEL TYPE	FLOWRATE	MAX PUMP PRESSURE
72000	Gasoline	130LPH	4-7 PSI
72001	Gasoline	100LPH	2-3.5 PSI
72003	Diesel	130LPH	4-7 PSI
72004	E85 / E100 / M100 / Racing Fuel	130LPH	4-7 PSI

Complete kit includes: 1x Fuel Pump, 1x Metal Filter, 2x bolts, 2x Nuts, 2x Lockwashers, 4x Hose Clamps

Fluid Coolers • Fluid Filtration • Transmission Cooling Pans
Electric Fans • Electric Fan Controllers • Belt Driven Fans • Fuel Pumps
